COMMUNITY CATERING PROGRAM

OUR WHY

In our continued efforts to support our partners and the anchor institution mission, we have implemented a community catering program where we partner with small and local businesses for our catering needs. To promote our partners; at every catered event, we put out a sign with vendor information and share details about our Community Catering Program during opening remarks. If you're hosting an event or know someone who is, we, ask you share the program with them.

SCoRE is a culturally welcoming and evidence-based office, committed to both creating a big tent for sustainability engagement and adhering to practices that reduce our environmental impact. To meet these goals, we do our best to follow these **guidelines** for catered events.

Community Catering List

Scan the QR Code to view the the Community Catering List. Note: While all of the caterers have been recommended to us by community partners' positive experiences, our center has not used all of the listed caterers.

Recommend Catering Facilities Form

Have a community caterer or a rental facility that you love and would like to recommend? Follow the QR code to make a submission.
